

TECHNICAL DATA SHEET

SF32 ULTIMATE SHOE

**WATER RESISTANT
LEATHER UPPER**

**PROTECTIVE
STEEL TOE CAP**

**PROTECTIVE
STEEL MIDSOLE**

DESCRIPTION

Ideal for managers or as a uniform shoe, the Ultimate shoe features a water resistant leather upper to keep feet dry, plus padded ankle support. It has both steel toe cap and midsole protection and the hardwearing, dual density PU sole is shock absorbent, anti-slip, anti-static and fuel oil resistant.

SIZES

- Warehousing

CERTIFICATION/MARKINGS

EN ISO 20345:2011 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3 WR HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
